

cast resin plaques

An extremely attractive range of cast hand painted signs, which combines the craftsman's methods of earlier times with the durability of modern materials.

Austin Luce has streamlined the process used by these craftsmen by substituting tough hard wearing polymer in place of cast iron. Along the way, none of the charm of the traditional designs has been lost.

The artists work in highly durable paints applied to the raised motifs, which are moulded into the sign itself. The final surface is protected with a tough coating of matt lacquer.

cast bronze plaques

Cast in solid Bronze from artwork to your design. Complete with decorative screw fixings or concealed studs on the rear for fixing.

The Bronze is available with the following finishes:

1. Natural Bronze (a light oatmeal colour that will mature with age)

2. Dark BMA Finish. This is often called 'Antique Bronze' because it has the dark brown colour of an old penny. The letters can be the same colour as the background or finished to give a brighter appearance.

3. Coloured finish. Background and/or letters can be spray enamelled to the colour of your choice.
